Words to keep an eye on

Write the target word, what your child wrote and which help changed it.

Example: *train* — *wrote tran*; *corrected after looking at ai*.

Our spelling week

Keep each session short with a clear finish. A note about one word tells you more than a score.

Day and goal	Words we practiced	What happened · next step
Monday Read the list together, talk about meanings and notice the pattern. Pick 2–3 words to revisit.		
Tuesday Start with a familiar word. Say, look, cover, try and check a few marked words.		
Wednesday Change the order. Sort a useful contrast or use one word in a sentence.		
Thursday Mixed check in a new order. Mark which words were on their own and which needed a hint.		
Friday Keep the usual morning routine. A brief, calm finish with no new words.		

After the test comes home

What felt familiar? Did anything about the format surprise your child? Keep one useful observation for next week.
